Sustainable facial treatments

Peach

When we suggest to do it:

particularly suitable in summer, stimulates cell renewal and promotes the production of melanin.

The treatment consists of:

The ritual includes an initial cleansing and skin exfoliation, deep but at the same time delicate, and a peach face mask application.

A short facial massage will conclude the treatment.

At the end of the treatment we serve Water Detox Peach and Cucumber

50 min - € 65

Beet

When we suggest to do it:

ideal if you have stressed and problematic skin. Beet is a natural anti-inflammatory, that soothes and helps to control the production of sebum.

The treatment consists of:

The ritual includes an initial cleansing and skin exfoliation, deep but delicate at the same time. It will be applied a soothing face mask with the juice of beetroot. A short but relaxing facial massage will finish the treatment.

At the end of the treatment we serve Beetroot and lime detox water

50 min - € 65

Melon

When we suggest to do it:

The melon contains beta carotene, therefore promotes tanning and protects against photoaging.

The treatment consists of:

The ritual includes an initial skin's cleansing and exfoliation moment, thanks to the cellular stimulation that comes from melon seeds. Later our Spa Therapist will apply a gentle sweet melon face mask. A short massage will be your final treatment. treat.

At the end of the treatment we serve detox water melon and green apple.

50 min - € 65

Sustainable body treatments

Apricot

When we suggest to do it:

apricot has extremely moisturizing properties so it is the ideal treatment after sun exposure.

The treatment consists of:

the ritual consists of a relaxing and nourishing massage, using the apricot pulp as main ingredient.

At the end of the treatment we serve detox water with apricot, lemon and mint

50 min - € 70

Olive oil

When we suggest to do it:

Olive oil is the perfect antioxidant. It is able to counteract free radicals, prevent the signs of skin aging and has a reparative and anti-inflammatory action.

The treatment consists of:

The ritual begins with a oil and cane sugar body scrub.
At the end of a short warm shower, a relaxing massage with evo oil will take place.

At the end of the treatment we serve detox water or herbal tea

50 min - € 70

Strawberry

When we suggest to do it:

Strawberry is an excellent skin astringent. It has moisturizing and nourishing, soothing, emollient and revitalizing properties. It's great anti-aging and a great ally against couperose.

The treatment consists of:

The ritual begins with strawberry pulp and yogurt body compress.
After a short warm shower, the treatment ends with a draining massage.

At the end of the treatment we serve strawberry detox water or herbal tea

50 min - € 60
